MID WEST

OUR 1936 INTRODUCTION

A cactus that has more vigor and size than any we have ever grown. The color is very near to a deep rich lavender rose of one solid color; is a very prolific bloomer; many have from four to ten nice blooms on at one time, and will grow to eleven inches in width and good depth. In 1934 was entered three times and won three firsts and was awarded Special Bronze Medal. We have a very favorable report from where it was grown on western coast; showing it was equally as good there. Largest and most perfect cactus at Ohio State Show in 1936. Try a cactus that insects seldom bother. \$2.00
